Family & Personal Counseling is the change you know you need.

At Family & Personal Counseling, you get more than just one-on-one therapy — you get a team. Let's face it: no therapist can specialize in every area of psychology. The structure of our practice allows our team of mental health professionals to work together to ensure all of your treatment needs are met. Whether you find yourself seeking individual, couples, or family therapy, we are here to help you and your loved ones.

What makes our practice different is the level of creativity and depth our counselors can offer. At Family & Personal Counseling, we give our therapists the freedom to go to the next level, using a variety of creative methods to meet the unique needs of each patient. Approaches like play therapy, art therapy, role-playing, writing, and reading assignments are often blended into the traditional counseling you would expect.

Who is Family & Personal Counseling?

Ron Villano is a leading expert in working through change. As a Licensed Mental Health Counselor, he guides others on how to navigate difficult times. As a bereaved father who lost his 17-year-old son, Michael, he always speaks from the heart. His message is simple, successful, and powerful because his approach is always personal—no matter how many people are in the room.

Have you lost your zest and zing for life? Is it time for a new approach? Are you ready to take a fresh, new step forward?
